Response to Amendment

1. Responsive to amendment, entered July 15, 2004, claims 1-8, 15, 16 and 18 are now cancelled. Previously allowed claims 9-14, 17 and 19-26 are in the application.
2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because informal drawings were submitted with the application. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Reasons for Allowance

3. Claims 9-14, 17, 19-26 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is related to dynamically throttling audio packets according to the utilization capacity of VoIP gateway. The closest prior art of record, Fitzgerald (US 6,421,720) and Kerr (US 5,844,600), combined or singularly, fails to disclose the unique steps of "monitoring utilization of interface buffer and the multiple processing units and varying percentage of the digital signal processors that increase the VoIP packet size according to the amount of free space in the interface buffer and an amount of processing capacity of the central processing unit used for switching the encoded audio signal to the IP network", and render claims 9, 13, 17, 20 and 24 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
